ABOUT ME

I am a passionate full stack developer skilled in both frontend and backend technologies. I specialize in creating responsive web applications using modern tools like React, Django, and PostgreSQL. With a deep understanding of databases, and UI/UX principles, I build scalable and maintainable solutions. Constantly learning, I enjoy solving complex problems and collaborating on impactful projects.

EDUCATION

- *University of Central Punjab 2023-2027*

I am currently pursuing a Bachelor's degree in Computer Science from the University of Central Punjab (Fsd Campus), I am in my 4th semester, gaining strong foundations in programming, software development.

- *Punjab College 2021-2023*

I completed my Intermediate in Computer Science (ICS) from Punjab Group of Colleges (PGC). This program enhanced my knowledge in computer science, mathematics, and logic building.

It laid the foundation for my passion in programming and web development.

MY WORKS

- *Technsol 2024-2025*

I worked as a Full Stack Developer Student Intern at Technsol, contributing to both frontend and backend development. This experience gave me practical exposure to modern web technologies and team-based development, helping me improve my real-world problem-solving skills.

- *Real Word Projects:*

Built projects like a Clothing Management System, Loan Management System, and Blogging Website, which improved my full-stack skills and real-time application understanding.
